EDUCATION

Universidad Empresarial Siglo 21 (UES21), Córdoba, Argentina

Oct 2025 - Present

B.Sc. in Computer Software Engineering

Universidad Tecnológica Nacional (UTN), La Plata, Argentina

2022 - Oct 2025

B.Sc. in Information Systems Engineering (4-Year Track)

PROFESSIONAL EXPERIENCE

Software Engineer

Remote

Afrus Org

Apr 2026 - Present

- Own the full product lifecycle end-to-end across architecture, **full-stack development**, **DevOps**, and **AWS** cloud operations, raising production uptime to 99.9% and shipping velocity 40% above baseline.
 - Automated **CI/CD pipelines**, **Docker** deployments, and **PyTest** suites, cutting release lead time from 5 days to 2 hours.

Software Engineer

Remote

Pergamon Advertising

Oct 2025 - Mar 2026

- Owned functional analysis, **system design**, and production deployment for 4+ high-impact applications, shortening time-to-market by 30% while keeping 99.95% production reliability.
 - Architected **Node.js/NestJS** APIs on **PostgreSQL** supporting 1,200 RPS throughput, and accelerated team output by 35% by integrating **LLM-driven AI** automation into the dev lifecycle.

Software Engineer Intern

Remote

Blue Alba LLC

Jun 2025 - Sep 2025

- Shipped a production data-analysis dashboard in a 4-engineer team, authoring **UML** designs, responsive **React** + **Recharts** UI, and RESTful **APIs** serving 200+ daily users.
 - Containerized services with **Docker** and managed **PostgreSQL** migrations and **PyTest** suites, raising deployment parity to 98% and cutting environment drift tickets by 75%/week.

Freelance Full Stack Developer

Remote

Self-Employed | Blue Alba LLC Intern

Dec 2021 - Jun 2025

- Delivered 10+ client-facing web apps over 3.5 years of repeat engagements, architecting responsive **React** and **React Native** UIs, **Django** and **Node.js** REST **APIs**, and **JWT/OAuth2** auth flows.
 - Shortened client time-to-launch by 3 weeks per project by owning end-to-end features including admin dashboards, data models, and third-party integrations.

SKILLS

Languages: Python, TypeScript, JavaScript, SQL, Bash, C#, HTML/CSS

Backend: Django, Node.js, NestJS, PostgreSQL, MySQL, REST APIs, WebSockets

Frontend: React, Next.js, TypeScript, React Query, Recharts, responsive design

Data & DevOps: ETL pipelines, Docker, GitHub Actions, CI/CD, PyTest, data validation

Architecture & Security: system design, UML, design patterns, JWT, OAuth2, OWASP best practices

AI / LLM: OpenAI API, local LLMs, prompt engineering, classification pipelines, AI agents, n8n

Methodologies: Agile (Scrum/Kanban), code reviews, production deployments, ISO/IATA compliance

Spoken: English (C2), Spanish (Native), Portuguese (A2)
